Summary

ERP & IT Programme Manager with 16+ years of experience leading enterprise digital transformation, custom ERP development, and enterprise software delivery across manufacturing and service industries. Proven track record of governing end-to-end ERP programmes, cross-functional teams, budgets, risks, and executive stakeholders using PMI principles and Agile delivery frameworks. Combines business process transformation, enterprise architecture, and systems integration to deliver scalable solutions that improve operational performance and business value.

Core Competencies & Technical Skills

- **Program Management & Governance:** Hybrid PMO Governance, End-to-End Methodologies (Waterfall/Gantt, Agile Scrum/Kanban), PMI Standards, Specialized Risk Management & Mitigation, Stakeholder Negotiation & Conflict Resolution
- **Enterprise IT Ecosystems:** ERP/MRP Implementations (MM, WMS), Odoo Academy Trained (v19: Inventory, Manufacturing, Accounting), SaaS Platform Delivery, Microservices Architecture, CI/CD Optimization, B2B/B2C Mobility Platforms.
- **Technical Leadership & Systems Integration:** Directing Cross-Functional Engineering Teams (Java/J2EE, Spring Boot, React, Node.js, DevOps/Docker/Kubernetes), Proprietary ERP Data Bridging & External Client Hardware Integration (Zebra Barcode Readers/Thermal Printers), Python-Based Technical Integration, REST APIs, EDIFACT
- **Data, AI & Analytics:** Data Modeling (Python, SQL, PostgreSQL, Advanced Excel & Access), Power BI Dashboards, AI-driven ERP R&D, Industrial Costing Engines, Energy Traceability Models

Professional Experience

Program Manager - SaaS & Digital Transformation | IPACT (Tunis, Tunisia) | 01.2022 – Present

Led digital transformation programs delivering SaaS platforms and enterprise applications, managing cross-functional teams through hybrid PMO governance and Agile delivery frameworks.

Managed end-to-end delivery across multiple digital initiatives, coordinating 12+ IT professionals (Development, DevOps, QA, Mobile) and international stakeholders while ensuring roadmap execution, risk management, stakeholder alignment, and business value delivery

- **ClicToEat Multi-Tenant Restaurant SaaS platform :** Managed the implementation of a restaurant digitalization platform supporting 20+ restaurants across 4 countries, from requirements engineering and backlog management to testing, deployment, and operational stabilization. Delivered digital ordering workflows, multilingual capabilities, and improved platform performance, increasing customer adoption by 60%
- Delivery Approach: Agile/Scrum
- Environment: MERN Stack, REST APIs, Docker, SaaS Multi-Tenant Architecture

- **Courzelo (LMS SaaS):** Led the product delivery lifecycle of an LMS platform, coordinating business requirements, development cycles, testing activities, and release management. Improved administrative processes by reducing manual workload by 65%, accelerated business reporting through Power BI dashboards
- Delivery Approach: Agile/Scrum + DevOps Practices
- Environment: React, Angular, Spring Boot, Node.js, MongoDB, Power BI, CI/CD.
- **Manajero ERP Platform (AI-Enabled R&D Initiative):** Managed the development of an ERP solution covering Finance, CRM, and Accounting processes, leading requirements analysis, functional design, backlog prioritization, MVP delivery, and validation activities. Achieved 95% completion of the targeted MVP scope and established core ERP capabilities aligned with SME digitalization needs.
- **Tawasalna (Mobile Ecosystem):** Coordinated parallel mobile and backend delivery streams, managing requirements, sprint execution, technical dependencies, testing, and production releases. Improved application maintainability through technical debt reduction of 22% while maintaining predictable Agile delivery performance
- Delivery Approach: Agile/Scrum
- Environment: React Native, Spring Boot, REST APIs, PostgreSQL, Microservices.

ERP Project Manager | Ideal Software Solution (Sfax, Tunisia) | 04.2014 – 12.2021

Led ERP and industrial digital transformation projects for textile manufacturing companies, managing customized ERP implementations, production process digitalization, and international B2B integrations across Tunisian and European business environments

- **Get in Germany - Recruitment SaaS Platform – B2C/B2B Digital Ecosystem:** Managed the design and delivery of a full SaaS recruitment platform connecting candidates and companies through intelligent matching workflows. Led the complete Agile/Scrum delivery cycle, including requirements engineering, backlog management, sprint planning, reviews, testing, and releases, while ensuring GDPR compliance and alignment with German employment regulations.
- Delivery Approach: Agile/Scrum (Full Sprint Lifecycle)
- Technical Environment: MERN Stack (MongoDB, Express.js, React, Node.js), REST APIs, Swagger.
- **CHEMMA CONFECTION – Customized ERP :** Directed the full-lifecycle implementation of a 1.2M TND custom ERP for textile manufacturing, partnering with technical and operational teams to optimize production workflows
- **PROTECH – Industrial ERP Design and Deployment :** Led the ERP transformation of a textile manufacturing company by coordinating 40+ Tunisian and German stakeholders across production, logistics, and management functions, managing requirements, solution delivery, and deployment of integrated MRP/WMS processes covering production planning, material management, shopfloor tracking, and international order flows; implemented EDIFACT/EDI integrations with European partners, improving data exchange reliability and reducing manual processing activities.
- Delivery Approach: Hybrid (Waterfall Governance + Agile Development Cycles)
- Technical Environment: Custom ERP Platform, MRP/WMS, On-Premise Infrastructure, LAN Architecture, Barcode & Thermal Printing Systems, Zebra Integration, REST APIs, EDIFACT/EDI, Database Integration.

Business Analyst - Digital Transformation | SMART SOLUTION Ese (Sfax, Tunisia) | 09.2008 – 03.2014

Supported ERP digital transformation projects by analyzing industrial processes, defining functional requirements, and coordinating with the Project Manager and technical teams to deliver customized business solutions.

- **Fontec – Manufacturing ERP (MM) Implementation** : Conducted on-site process analysis across foundry, machining, and finishing operations to map material flows, production activities, machine cycles, and operational constraints into ERP functional specifications. Supported the design and delivery of customized MM modules covering inventory management, production tracking, costing, and operational control.
- **Fontec – Customized CRM Extension Project** : Designed a modular CRM extension for sales pipelines and commission tracking, deploying SOAP.
- Managed full-lifecycle on-premise deployment across a local network (LAN), authored all technical documentation, and trained over 15 cross-functional users from operators to management.
- Technical Environment: (JAX-WS) and HTTP XML/CSV endpoints for real-time e-commerce synchronization (orders, invoices, clients).

Education

- **Master's Degree, Information Systems Management** | National Engineering School of Sfax (ENIS) | 09.2006 – 06.2008
- **Diploma Degree, Applied Computer Science for Management** | University of Management and Technology (Sfax) | 09.2002 – 06.2006
- **High School Diploma, Mathematics** | High school of OH (Sidi Bouzid) | 09.1998 – 06.2002

Certifications & Continuous Learning

- **Project Management & Agile:** Project Manager Professional (PMP), Scrum Fundamentals (SFC), Kanban Essentials with AI, OKR Fundamentals with AI, Scrum For operations & DevOps.
- **Enterprise Systems:** Continuous learning in ERP & SAP S/4HANA environments, SAP Activate Methodology - Practical Familiarization.
- **Business & Strategy:** Business Analysis Fundamentals with AI, Six Sigma Yellow Belt Professional, Negotiation Associate, Digital Marketing Fundamentals, Corporate Sales Fundamentals.
- **Specialized Training:** Lean Manufacturing (2023), Trainer of Trainers (2015).

Languages

- **French:** C1
- **English:** C1
- **German:** B1
- **Arabic:** C2

Volunteering Experience

President / Treasurer | UTAIM (NGO for Mental Disabilities) | Sidi Bouzid, Tunisia | 02.2013 – 05.2023

- **Executive Leadership (2016-2023):** Commanded full operational and strategic accountability, leading a multidisciplinary team of 12 and championing specialized programs for over 45 beneficiaries while navigating complex socio-economic challenges.
- **Financial Governance (2013-2016):** Spearheaded financial restructuring and strict internal controls, successfully scaling the annual operating budget from 100K TND to over 600K TND, ensuring 100% regulatory compliance, absolute transparency, and alignment with international auditing benchmarks.
